Family Heritage Program

This unique program allows for graves or crypts already owned by families to be transformed into a family estate. Depending on the grave or crypt selected, a number of cremated remains can typically be added. The plot will serve as a family's final gathering place, allowing family members who have lived apart to be together on their final journey as well as be a place that generations can come to remember their ancestors. With this program we maximize the use of space and minimize the cost to families.

FAQs:

How many cremated remains are allowed in an existing location?
Depending on the size of the existing grave or crypt, eight or more cremated remains are allowed per space.

How can I be memorialized?
Space permitting multiple family members can have their names inscribed on the monument or crypt.* When the number of inscriptions exceeds what is feasible or permitted, cenotaphs are available as well as bronze plaques which will be placed near the final resting place.
